Export verdict

Action, both eyes and base remain inside the portrait crop.

Frame 60 at2.00s shows only Meet Poppie; no overlapping caption.

Source sound is off; Moonlit Reverie is the only score.

Export decodes as120 frames at30fps, 4.00 seconds.

A held pose with flicker is a separate production reject, not this take.

Your checklist

- [ ] Keep the whole action inside the crop.
- [ ] Read both captions at normal viewing size.
- [ ] Check the first frame, 2.00s change and final frame.
- [ ] Play one music track; mute the original clip.
- [ ] Reopen the actual downloaded file before sharing.
